Like maybe if you were capable of not cheating I would let you go to a party alone or maybe if you just never cheated on me in the first place she would be able to go to parties alone but there's always something I find out later that I don't like about the parties that you go to you always leave out information when you go alone so no you will never be allowed to go to a fucking party now that's conversation is overpriced

Hi Julie it’s Kenzie I just wanted to talk to you about today because I literally feel like Vicky doesn’t like me for no reason it was my first day working with her and I opened with her and she didn’t even talk to me and she just kept giving me dirty looks like I don’t know I got on her bad side. I’m not feeling well today and I ended up puking in the bathroom and then she yelled at me for being sick. Is there anyway that I cannot work with her or be put on separate shifts because I don’t feel comfortable around her.

I've literally told you the only way we will get back together and work things out is if I'm allowed to go through your phone when I ask. The fact that you literally did not give me your phone last night and then proceeded to go on it for like 10 minutes and delete whatever the fuck was that it brings your trust back down to -0 like we need to talk
